Subject: RE: Bioaccumulation Modeling

Please put this as the last item on the agenda.

Thank you

Subject: Bioaccumulation Modeling

Stephanie and Eugenia:

I understand that Ray and Eugenia told Mike during a call on Tuesday that there was no one on your team would be prepared to discuss and evaluate the CPG's work on the Bioaccumulation model. The proposed agenda was developed to present an overview of the CPG model development which has been used to evaluate the Sustainable Remedy and this includes work on the bioaccumulation model. John Toll has prepared a very general and upper level presentation with background on what he has done - it does not provide results or findings. John had purchased a non refundable ticket and is traveling today. The CPG would like to have John present his slides.

Thank you.
